NAME

bg5conv – convert a TeX document in Big 5 encoding into 'preprocessed' form.

SYNOPSIS

bg5conv < *infile* > *outfile*

DESCRIPTION

Big 5 encoding for traditional Chinese uses the characters `{`, `}`, and `\` which have special meanings in TEX documents.

After processing a LATEX 2_ε document which contains Big 5 characters with **bg5conv** you need not care about these special characters.

This filter is part of the **CJK** macro package for LATEX 2_ε.

SEE ALSO

sjisconv(1), **cefconv**(1), **cef5conv**(1), **cefsconv**(1), **extconv**(1),
the **CJK** documentation files.
